A Legitimate Consumer Complaint Triggered Organized Retaliation

01

Consumer Files Complaint

A consumer raises a legitimate formal grievance against Lunar Astro for consultation fraud and bait-and-switch tactics.

02

Company Deploys Troll Network

Instead of addressing the complaint, Lunar Astro weaponizes proxy Facebook pages: 'Lunar Astro Memes' and 'Lunar Astro Videos.'

03

Target: The Family, Not the Complainant

In a calculated intimidation strategy, the troll network targets the consumer's wife and minor children — not the complainant himself.

RETALIATION PATTERN — DOCUMENTED

The Proxy Harassment Network

Weaponized solely to target, stalk, and humiliate the victim's family.

This Is What Happens to Everyone Who Complains

ARM 1

SLAPP Suits

Lunar Astro issues 'Concerns Notices' and legal threats to intimidate critics, former students, and whistleblowers. Designed to drain victims financially through legal fees.

ARM 2

Digital Suppression

PR agencies flood Google search results with paid articles and fake reviews to bury legitimate consumer complaints and prevent them from reaching public visibility.

ARM 3

Troll Network Violence

Proxy Facebook pages are weaponized against the families of vocal complainants. Targeting wives and children is the most extreme arm of the intimidation strategy.

The harassment of this family is not an exception. It is the policy.
